AICTE Approved

NAAC Accreditation

MHRD / UGC

# Bachelor of Design (B.Des.) in Humanising Technology

**POWERED BY MULTI-DISCIPLINARITY**

**CHALLENGE • EVOLVE • IMPACT**

“A designer is an emerging synthesis of artist, inventor, mechanic, objective economist, and evolutionary strategist.”

- Buckminster Fuller

## NMIMS (Deemed to be University)

Built on an inspiring legacy of 41 years, NMIMS stands proud as a Deemed-to-be University, offering multiple disciplines across multiple campuses. What started as an institute in a small building has caught the attention of the world, thanks to their 17 specialized schools. NMIMS School of Business Management, Mumbai ranked amongst The Top 100 Global B-Schools by Financial Times MiM Ranking 2022.

## The School of Design

The school of design, with its top-notch staff and infrastructure, trains professionals with skill sets suited for the future. The school of design, which provides an AICTE-approved undergraduate degree programme (B. Des) in Humanising Technology, places a strong emphasis on the value of trans-disciplinarily. This curriculum's generalist design foundation develops into a focus on delivering seamless user experiences while utilising cutting-edge tools, design that is human-centered with practice-based education and active learning.

## Vision

To prime designers to craft value-enhancing, future-scoped solutions in an increasingly digitised world.

## Mission

- To nurture students in immersive, holistic, multidisciplinary learning engagements.
- To prepare students to be innovative professionals who will create value by humanising technology in emergent scenarios.

## B.Des (Humanising Technology)

**Design Product Experiences for the future.**

The role of a designer today is varied and comprehensive-it combines design with technology to serve business and social needs; it entails designing communications to designing businesses. This unique program caters to the minutest nuances and gives a multidisciplinary edge to the ever evolving field of design. Our well-trained, visionary faculty ensure that our students are trained for a bright career in design.

**What is humanising technology?** Simply put, it is the act of design to make technology accessible, usable, and delightful. Technology requires to transform into human-friendly roles to seamlessly integrate into our lives. A multi-skilled, transdisciplinary approached program becomes relevant.

## Program Objectives

- The program teaches students to face and solve the design challenges in the modern world.
- To create designs that will make technology accessible and consumable to the users.
- To expose students to multidisciplinary fundamentals like sociology, psychology and business.
- To open up numerous career avenues with our future-scoped, transdisciplinary, multi-skilled and industry focused program.

## Curriculum

Our curriculum is a progressive tenet of using Design as a focal point to address problems considering the interpretations from cognitive, behavioural science, and business. More importantly, considering technology as an opportunity and an enabler.

This trans-disciplinary program is based on seven fundamentals broadly classified as **Design Centric** and **Design Influencers**. The **Design Centric** comprises the core design modules, while the **Design Influencers** include modules in Technology, Psychology, Sociology, and Business. Together, they equip the students with design sensibilities and problem-solving skills to build experiential solutions.

## Facilities

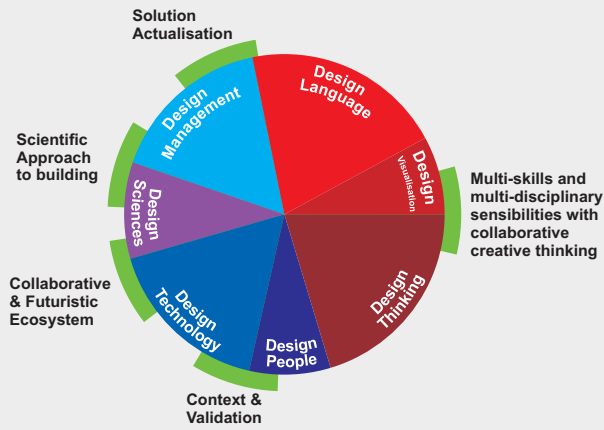

- State of the art WiFi enabled, Smart-boards equipped studios plus projection facility.
- The Builder's sanctum to prototype with different materials with hand and powered machines and tools.
- One of the few design schools in India to house a Rapid Prototyping Lab (including a 3D printer, laser cutter and CNC milling machine).
- A Tinkering lab with a wide range of electronics for prototyping, including proto-boards like the Arduino, the Raspberry-Pi, various kinds of sensors, LEDs, drivers to explore and build with.
- The School of Design also houses the XR reality lab with high-end computing machines and state of the art head mounted devices.
- It is the only school in India to include a Usability lab (Test Drive) in its facilities to evaluate the solutions designed therein. This facilitates user- centricity and value build in design .
- A well-stocked library with up-to-date knowledge resources in design as well all other faculties of the university.

## Faculty Profile

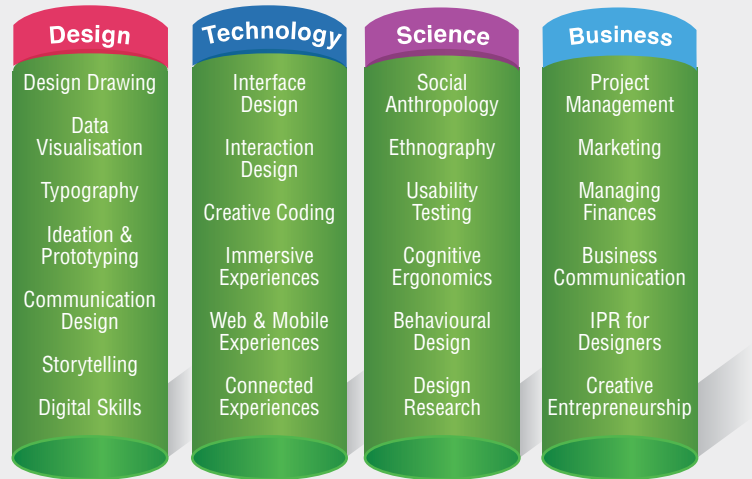

An educational experience is complete only with committed, talented and inspiring faculty. The School of Design is proud to have well-qualified academicians with practitioner experience. All the faculty members are from National Institutes (IIT, SPA, NITIE) and Industries.

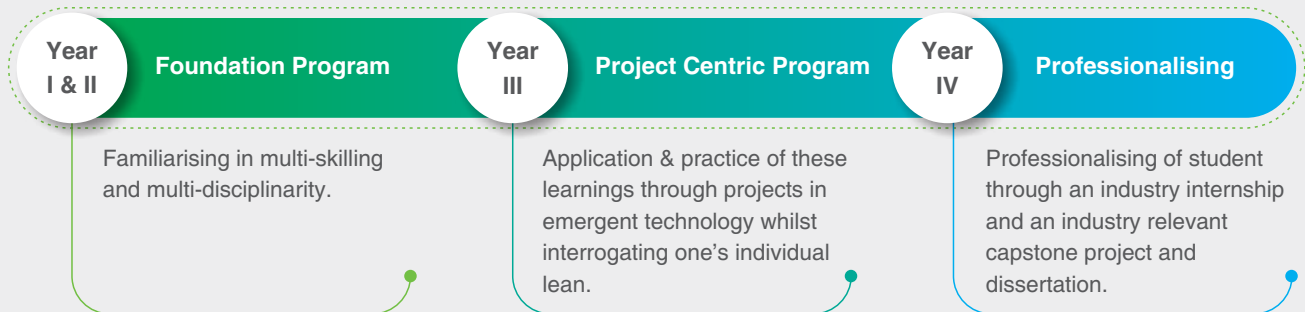

### Seven Fundamentals of the B.Des. Program

### Suggestive module in B.Des. Program in (Humanising Technology)

### Learning goals

## Career Opportunities

With design dominating most sectors today, it spells good news for budding designers.

Thanks to our intensive, immersive, and all-encompassing curriculum, aided with the necessary practical training, our graduates can easily land a lucrative job in consulting, hospitality, IT, banking, healthcare, education, tourism, and other sectors.

### Possible Job Profiles:

- Interaction Designer
- Experience Designer for Emerging Technology
- Design Researcher
- UX & UI Designer
- Data Visualizer

## Higher Education

The students can opt for a master's degree in design in India or abroad, given the awarded degree is internationally recognised as well. Selected students are pursuing higher education at world class universities across the globe.

- Royal College of Arts (School of Design)
- University of Nottingham
- Loughborough University
- TU Delft
- California College of the Arts
- Parsons School of Design

## Entrepreneurship

The opportunities are endless. For those wanting to fly solo, the scope is limitless. While the world of start-ups beckon.

## Placements and Internships Partners

## Eligibility

To apply, the aspirant should have passed 10+2 or equivalent examination in any stream and should have obtained a minimum of 50% aggregate marks from a recognized Board. International Baccalaureate Diploma (I.B. certificate / & D.P. awarded candidates) are eligible only if they have cleared their I.B. exam with total of 24 credits (compulsory) and passed 3 H.L. & 3 S.L. mandatorily.

## How to Apply?

**Step 1** : Registration & Payment of Application Fees

**Step 2** : Appear for Studio Test

**Step 3** : Appear for Personal Interview & Submission of Portfolio

**Step 4** : Declaration of Merit List
